“No wonder films don't always do well. After seeing a debate like this where so many intellectual young minds fight it out who would want to go to a movie theatre?”
-Mahesh Bhatt

“Way beyond my expectations. Never expected a technical college to hold such a non-technical Debate!”
-Dolly Thakore

“The debate was well-organised and the participants were well aware. You people reminded me of the smart youth our country is famous for”
- Madhur Bhandarkar

About

The National level Fr. Conceicao Rodrigues Memorial Debate is a prestigious Debate Competition in Mumbai, hosted annually by Fr. Conceicao Rodrigues College of Engineering, Bandra.

Inaugurated in the year 1999 as a debate competition for colleges within Mumbai, it became a National level Competition in 2012. It has been a reputed platform for students all across the country for 8 years now. It is a 2 day event usually held in the month of September organized by the Students' Council, CRCE but this year, in the face of COVID-19, we are organizing a 3 day virtual event on the 6th, 7th and 8th November. The debate aims to provide a forum for today's youth to articulate views and engage in a dialogue on various affairs that affect the life of the common man, directly or otherwise while also showcasing the power of deploying rational, reasoned arguments and compelling evidence in action.

Theme

Immanent Critique of Social Adiaphora

Immanent critique is a method of discussing culture which aims to find contradictions in society's rules and systems. It explores the ideological basis of the issues in addition to the direct problems. Adiaphora is a concept of morality being subjective and it being something which neither mandates or forbids.

In layman terms, the essence of the motion is social critique in a world which naturally neither means to debar or permit our actions while also exploring the personal virtues of an individual and how their ideas compare to the set practices. We identify the positive features of the prevailing social and political world order and open up intellectual space to challenge this world's "immanent contradictions" for the purpose of empowering a wider range of societal actors. Social critique is limited to a certain domain of potential objects - namely, practices, institutions, customs and collective actions. Those who engage in social critique evaluate these entities on the basis of a standard - thereby pointing out all that fails to live up to that standard.

This theme encompasses everything from socio-economic status of the world due to COVID-19 to political expediency, as well as discourses over abstract and hypothetical ideas.
